  2019
  SSC Percentage: 71.40%

About Me

Dedicated Front-End Developer with a ability to create responsive and user-centric web applications using React.js and modern JavaScript practices (ES6+). Skilled in state management with libraries like Redux Toolkit and proficient in front-end development essentials like HTML5, CSS3, and development tools (React Query, React Router). Continuously expanding knowledge base by exploring frameworks like Next.js. Knowledgeable in fundamental data structures and algorithms, ensuring efficient and optimized code.

Projects

VirtueVerses – Blog Web Application
2024

- Developed VirtueVerses, a feature-rich blog application using React.js, React Query, and Supabase (backend as a service).
- Secure user authentication (signup, login).
- Dynamic content management (CRUD) for user-driven creation/editing/deletion.
- Likes and comments for community engagement.
- **Github Link** : Github Repo

ChitraMitra - Social Web Application
2024

- Created a dynamic social media platform using React.js, Supabase, React Query, and Tailwind CSS.
- Secure user authentication (signup, login).
- Implemented post CRUD for user content management.
- Likes and comments for community engagement.
- Implemented follow/unfollow functionality for user connections.
- Users can follow other users to see their posts in there feed.
- Enabled messaging for seamless communication among users.
- Incorporated dark mode for enhanced user experience.
- **Github Link** : Github Repo

Certifications

- Responsive Web Development Certification (HTML & CSS) (Udemy) - Dec 2022 **(Certification Link)**

- JavaScript Development Certification (Udemy) - May 2023 **(Certification Link)**
