PROFILE

Frontend Developer proficient in React, JavaScript, Next.js, HTML, CSS, and TailwindCSS, focused on building responsive and high-performance web applications. Skilled in collaborating with teams, problem-solving, and delivering user-centric solutions. Committed to continuous learning and adapting to new technologies.

EDUCATION

Mulund College Of Commerce (Autonomous)   *Mulund, India*
Bachelor of Science in Computer Science   2021 – 2024
- CGPA : 8.75/10

SKILLS

Technical: JavaScript, ReactJS, Next.js, TypeScript, HTML, CSS, Tailwind CSS, React Flow, Responsive Web Design, Node.js & ExpressJS, Context API, React Router, ShadCN, MongoDB, Mongoose, Three.js, Framer Motion

Tools: Redux Toolkit, React Query, Git, Github, Vercel, Netlify, Firebase, Supabase

CERTIFICATIONS

- Build Responsive Real-World Websites with HTML and CSS (Udemy) – Dec'22 *(link)*
- JavaScript Development Certification (Udemy) – May'23 *(link)*
- ReactJS and NextJS Development Certification (Udemy) – Dec'23 *(link)*

EXPERIENCE

Nablasol   *Remote*
Software Developer Intern   Oct 2024 – April 2025
- Fixed critical bugs and optimized React.js applications, improving performance by 25% and reducing load times.
- Integrated APIs and managed seamless data handling while working on a Document Management System (DMS).
- Collaborated with the backend team to ensure seamless API integration and 99% data consistency.
- Built the frontend for a workflow management project using React.js and React Flow, delivering a dynamic, interactive UI.
- Coordinated with the team to design intuitive workflows, ensuring a seamless and engaging user experience.
- Managed production deployments independently, improving uptime 99.9% and cutting issue resolution time by 20%.
- Developed a Wix website from scratch, adding custom features and ensuring a 100% responsive, user-friendly design.

PROJECTS

ChitraMitra – Social Web Application   Jul 2024
- Built a dynamic social media platform using ReactJS, Supabase, React Query, and Tailwind Css.
- Implemented secure user authentication, improving security and reducing unauthorized access.
- Managed post CRUD operations and integrated likes, comments, follow/unfollow, and messaging features, boosting user engagement.
- Github Repo (link)

Space Explorer Game   May 2025
- Developed a 3D space shooter web game in React Three Fiber where players dodge and shoot asteroids to survive.
- Implemented adaptive difficulty by accelerating obstacle speed and increasing their number every 100 points scored.
- Designed a username login with dynamic avatars and a real-time leaderboard leveraging Firebase Firestore.
- Deployed on Firebase Hosting, improving performance by 3% and reducing load times by 4-5 seconds.
