PROFILE

Frontend Developer with 1+ Year of experience in React.js, focused on building scalable and high-performance web applications. Skilled in React, Next.js, TypeScript, and modern state management, with hands-on experience in API integration and dynamic UI development. Built a low-code form builder with features like conditional logic and real-time previews. Familiar with Angular fundamentals.

EDUCATION

Mulund College Of Commerce (Autonomous)

Mulund, India

Bachelor of Science in Computer Science

2021 – 2024

- CGPA : 8.75/10

SKILLS

Languages: JavaScript (ES6+), TypeScript

Frameworks & Libraries: React.js, Next.js, Angular (fundamentals), React Flow, Framer Motion, Three.js

State & Data: Redux Toolkit, React Query, Context API, React Router

UI & Styling: Tailwind CSS, ShadCN, Responsive Web Design

Backend & Database: Node.js, Express.js, MongoDB, Mongoose

Mobile: Expo (React Native), Flutter

Tools & Platforms: Git, GitHub, Vercel, Netlify, Firebase, Supabase

CERTIFICATIONS

- Build Responsive Real-World Websites with HTML and CSS (Udemy) – Dec'22 ([link](#))
- JavaScript Development Certification (Udemy) – May'23 ([link](#))
- ReactJS and NextJS Development Certification (Udemy) – Dec'23 ([link](#))

EXPERIENCE

Kyzer Software

Mumbai, Maharashtra

Software Developer

Dec 2025 – Present

- Architected a low-code dynamic form builder with 25+ configurable field types (text, table, date, file, select, combobox, and more), conditional logic, and multi-step validation, enabling non-technical users to build complex forms without developer support.
- Built dynamic table generation with live API integration, auto-populating fields from real API data and eliminating manual data entry.
- Rebuilt the existing product to be fully mobile-responsive across breakpoints, improving usability on mobile and tablet devices (Angular v19).
- Built a workflow/process designer (React Flow) featuring a live simulation mode with play, pause, and variable-speed resume controls, plus node-to-form linking that opens the associated form in real time as a workflow executes.
- Building an early-stage cross-platform mobile app in Flutter, establishing reusable UI components and mobile architecture patterns.

Nablasol

Remote

Software Developer

Oct 2024 – April 2025

- Improved performance of React.js applications by 25%, reducing load times and enhancing user experience.
- Integrated REST APIs into a Document Management System (DMS), maintaining 99% data accuracy across workflows.
- Engineered a dynamic workflow builder using React Flow, enabling teams to design and manage interactive workflows efficiently.
- Owned production deployments end-to-end, achieving 99.9% uptime and cutting issue resolution time by 20%.
- Delivered a fully responsive, custom Wix-based website, meeting 100% of client design and functionality requirements.
